MEMORANDUM FOR:

SUBJECT : Support Career Service Conference

HG:

This week's Support Conference could not have been the great success it was without the outstanding contribution you made - to the agenda group, to and in the organizing itself, to the subpanels before and during the conference, and in the doing of the many other "dunk" jobs you so generously undertook throughout this period. All the arrangements were excellent and the tone of the conference which you certainly helped to set produced the refreshing level of give and take and mutual understanding. Many more words could be written but these I hope reflect the sincere appreciation of all for your unstinting efforts and high accomplishments in connection with the conference. My warmest thanks.
